# Health & Safety Competent Person Service

**Knowledge**

**Skills**

**Experience**

**Risk Protection Solutions are proud to provide a Health & Safety Competent Person service for our clients**

At Risk Protection Solutions Ltd we do not think of H&S as a stand alone package of theory.

We work to the principle that H&S is an integral component of the building blocks to successful business.

Our Competent Person service will help you to shape the planning and implementation platform of your business. It will help you to proactively control your risks, respond to change and maintain a positive outlook and workplace culture.

I look forward to having the opportunity to share with you our knowledge, skills and experience in health and safety ...enabling you to focus on your core business.

Adele Wood BSc (Hons), CMIOSH

Director

The competent resource we provide to you, is a CMIOSH\* Safety Practitioner who has experience of providing expert Health and Safety advice in a range of organisations not only in the UK, but also the United States and Europe. Organisations including Global Pharmaceutical and Biotechnology companies, Precision Engineering firms, Bulk Plastic Manufacturers, Local Authorities, NHS Trusts, Border Force and other divisions of the Home Office.

Personal Continuous Professional Development (CPD) is rigorously maintained. It is not merely to maintain membership of Professional Institutions, moreover it is done in order to provide our clients with the up to date and accurate advice they are paying us for.

All advice provided, is backed by a foundation of relevant professional qualifications. For example:

- NEBOSH Diploma
- BSc (Hons) Chemistry
- IChemE Hazop Leadership
- Fire Risk Assessment (IOSH)

Your consultant is a discipline expert with proven technical knowledge. In addition, and equally important to you and the successful delivery of the service, is that they have a wealth of experience which is born from practical application of Health and Safety management in the real world. A rare, but highly beneficial attribute.

\* Chartered Members of the Institution of Occupational Safety and Health.

*“...when we called,  
they came to our aid”*

*“They have a wealth  
of in depth  
knowledge in all  
aspects of Health  
and Safety....”*

*“What we  
appreciated most  
about working with  
Risk Protection  
Solutions, is that they  
provided us with a  
framework to  
maintain our safety  
management system  
and constantly  
improve upon it”*

# Competent Person Service

**Summary:** To act as the external provider of professional competent Health and Safety resource to your organisation.

In addition to providing dedicated time on site working directly for you, we will also be on call for help and advice by telephone and e-mail throughout the contracted period and will provide updates on health and safety legislation relevant to your operations.

## Our time can include:

- Attending site meetings and planned inspections with Regulators and Enforcement Authorities such as the Health and Safety Executive (HSE);
- Participating in on site committee meetings/management meetings to advise on matters of general H&S compliance in relation to business developments e.g., H&S impacts associated with new processing activities/projects;
- Participating in scheduled Workplace Safety inspections and audits;
- Supporting the development of a positive health and safety culture, including the development and maintenance of suitable organisational arrangements for Health and Safety Management;
- Delivering Health and Safety related training;
- Accident and Incident Investigation and advice on regulatory reporting to the HSE under the Reporting of Injuries and Dangerous Diseases Regulations (RIDDOR);
- Facilitating and advising on the completion of General Risk Assessments associated with your ongoing operations;
- Establishing value added performance indicators that will objectively measure the health and safety performance of the organisation on a periodic basis;
- Advising on the identification of realistic continuous improvement targets.
