Adele Wood

First Name: Adele

Last Name: Wood

Job Title: Managing Director

Company: Risk Protection Solutions Ltd.

Adele Wood is the Managing Director of Risk Protection Solutions Ltd. With 18 years experience as a Safety Practitioner, she is a Chartered Member of the Institution of Occupational Safety and Health (CMIOSH) and is listed on the Occupational Safety and Health Consultants Register (OSCHR).

Prior to setting up her own Consultancy in 2011, she worked for 14 years as a Safety Manager for the Global Pharmaceutical company, Pfizer Ltd, based at their Lower Tier COMAH site in Kent.

Although Adele has worked primarily in high hazard industry, her experience also extends to the Public Sector. As a former Safety Officer for two Local Authorities in the North East of England, she supported a wide range of operational functions. These ranged from facility management and construction, through to education, social services and waste management.

With an Honours Degree in Chemistry, Adele originally started out as a Development Chemist in the Oilfield and Pharmaceutical Industries of Teesport and Liverpool. This involved trouble-shooting and optimising chemical processes from laboratory through to production scale, as well as formulating Material Safety Data Sheets.

Her passion for Health and Safety emerged when she volunteered to be a Safety Representative ... and the rest (as they say) is history!
